

the right approach

TO VISUAL TECHNOLOGY SOLUTIONS

kan-vis

a team of experts who consult, design, develop and implement the right visual technology solution

Canvys, a division of Richardson Electronics, provides innovative visual technology solutions to companies all over the world. We bring together the engineering and manufacturing expertise of three longtime industry leaders — Pixelink, A.C.T. Kern and Image Systems. Through our combined visual technology experience, application insight and global resources, we offer:

Solution Consulting and Custom Engineering, including:

- Needs assessment and consultation
- On-site technology audits
- Prototyping

Product Modification and Integration, including:

- Mounting solutions
- Upgraded power supplies and controllers
- Custom bezels and enclosures
- Protective, touch and privacy screens
- Specialized finishes and branding
- Systems and software

Product Sourcing and Manufacturing, including:

- Domestic and offshore manufacturing plants
- Access to virtually any display brand/component
- Ability to handle production orders of any size

Comprehensive Service and Support, including:

- 24/7 phone and online support
- On-site installation, training, maintenance and QC/QA
- Total project management

why work with canvys? because your solution has to be right.

Canvys is committed to understanding your visual technology needs and delivering a solution that exceeds your expectations. This customer-focused approach is just one of the many reasons companies choose to work with us. They also value our:

Expertise and Proven Success

We have successfully engineered solutions for applications in healthcare, finance, gaming, retail, public information and more. Plus, we know how to bring together all the necessary pieces for your solution — from hardware components and software systems to manufacturing facilities.

Superior Vendor Partnerships

We have strong relationships with leading component and finished-goods manufacturers in the industry to give you access to the technologies you need.

State-of-the-Art Facilities

We maintain ISO 9001-2000-registered Technology Innovation Centers in North America and Europe to ensure we produce the highest quality systems. Our facilities feature Class 10,000 clean rooms, Electro-Static Discharge (ESD) protection, and shock and vibration testing chambers.

Global Distribution System

No matter where your business is based, Canvys can get you what you need. We have sales offices strategically located throughout North America, Europe and Asia.

Vendor-Agnostic Approach

We never favor one vendor over another, so you can trust that we're recommending only what's right for you.

Full Range of Advanced Products

We maintain our own comprehensive catalog of displays, mounts, enclosures, conformance and calibration software and more.

System Certifications

We provide systems with the following certifications: UL, CCC, CE, CSA, CSA60601-1 medical certification, FCC A&B and others upon request.

because visual technology is complex, we offer comprehensive support.

We understand that visual technology poses challenges that go beyond acquiring the right solution. That's why we offer comprehensive services to ensure your system is installed properly and consistently delivers the superior performance you expect. In addition to 24/7 online and phone support, we have visual technology experts who can provide an array of on-site services. They include:

Solution Audits

Our solutions consultants visit your facility, evaluate your visual technology needs and make expert recommendations.

Product Demonstrations

For proof of concept, testing and/or compatibility evaluation, we can demonstrate systems at your facility — and leave them with you for up to two weeks.

Installation

Our experts install and mount your new displays, perform the initial setup, and train your staff to use them.

QC/QA

Medical imaging systems must be precisely calibrated. Our experts have extensive experience and can ensure that your displays meet or exceed industry conformance and calibration standards.

Richardson Electronics™ Quality Policy

Provide engineered solutions that meet or exceed customer requirements by:

- **Delivering quality products, information and services in a timely fashion**
- **Spreading the “continuous improvement” state of mind throughout the organization**
- **Responding to customer needs and expectations in order to maintain the highest level of customer satisfaction**
- **Setting and reviewing quality objectives throughout all levels of the company**

Because every industry has unique needs, we have experts dedicated to addressing them. Canvys understands that every market and application has its own requirements. That's why we have experts who have experience developing solutions for the financial, gaming, retail industries and more. Plus, we specialize in engineering systems for healthcare, Original Equipment Manufacturers (OEMs) and digital signage applications.

HEALTHCARE SOLUTIONS

Canvys understands the unique challenges faced by healthcare organizations — and we face them head-on. By designing solutions that streamline your workflow. By improving the usability of your equipment. By ensuring your display systems are compatible and up-to-date. In addition, we can keep all your displays calibrated to the current industry standards. We're experts at developing and implementing solutions for diagnostic and clinical review, 3-D and post processing applications, trauma centers and surgical suites, and modality-specific imaging. By providing total solutions, we can offer healthcare customers:

- Facility audits to determine display needs
- Development of custom solutions
- Installation of hardware and system rollout
- Cradle-to-grave management of displays
- Hot-swapping of components
- On-site calibration and training

We also leverage our relationships with leading manufacturers and suppliers to ensure you have access to the advanced features you need, including:

- High-bright/sunlight readable
- Privacy screens
- Protective panels
- Ruggedized chassis and displays
- Touch screens with dispersive signal, capacitive, resistive and surface acoustic wave technologies

*Long recognized
as the experts in
high performance
medical imaging*

DIGITAL SIGNAGE SOLUTIONS

By the year 2011, market experts estimate that digital signage will be used in 90 percent of the world's retail outlets. Already, companies in a wide array of industries — such as quick-service restaurants, transportation and education — are turning to digital signage to address their communication needs.

Our experts are helping them implement the right solutions with capabilities that include:

- Specifying the right display systems and software packages for content management
- Sourcing and delivering a total signage solution
- Customizing the solution as needed
- Providing expert installation, troubleshooting, maintenance and support
- Offering total project management

With extensive knowledge of the digital signage industry, we're able to be more nimble than other suppliers by providing the swift service our customers expect. Our responsiveness ensures content is delivered consistently and to the right audience.

This dedication to customers, along with our vendor-agnostic approach, has earned us a reputation for trustworthiness and reliability — one that we plan on upholding.

Complete digital signage solutions — from engineering to installation to maintenance

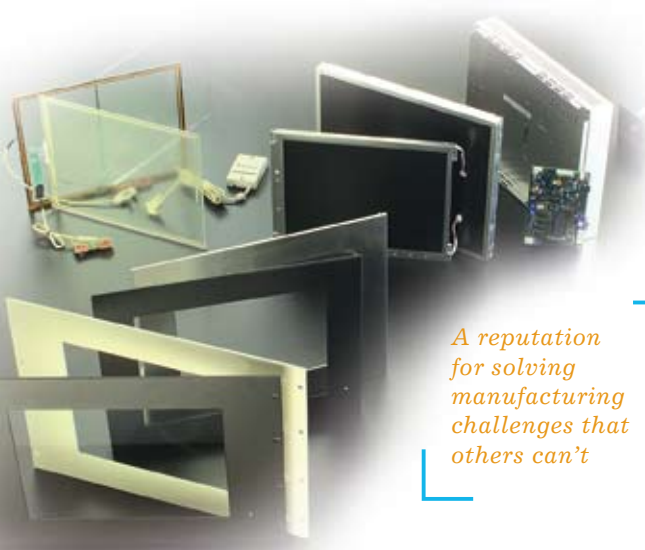

CUSTOM / OEM SOLUTIONS

We know that every OEM has particular needs, depending on the market it serves, but all OEMs count on us for our superior product reliability. We pride ourselves on delivering it — through partially and fully customized solutions and long-term availability.

After years of partnering with OEMs in industries such as gaming, defense, POS, industrial and security, we're able to bring together the capabilities our customers need:

- Custom engineering
- Strong relationships with key vendors and manufacturers
- Comprehensive solution support

Our ability to successfully serve OEMs is proven by the number of customers who return to Canvys for the second, third and fourth generation of their solutions.

A reputation for solving manufacturing challenges that others can't

because we approach each customer challenge as a blank canvas, we're able to create inspired solutions.

We have a deep dedication to satisfying our customers' needs. By bringing together a distinctive combination of recognized expertise, we're able to help you reach your goals. It's our collaborative approach, a broad range of services and global reach that sets us apart — and sets you up for success.

So no matter what the industry or application, we can provide you with the best visual technology solution. Because when it comes to our customers, **it has to be right.**
